Ms. Jane Smith  
HR Director  
ABC Company  
123 Fake St.  
Raleigh, NC 27606

Dear Ms. Smith:

I am applying for the \_\_\_\_\_ position posted on the ABC Company website.

I completed the UNC Coding Boot Camp August of this year. A couple of years prior to my experience at the bootcamp I experimented with developer boards and C++. Which provided a great platform to digest the curriculum set by UNC. I mainly have been writing in Javascript with React, but can also can utilize the proper frameworks and technologies for the proper applications. I have a basic understand of C# and .NET in comparison. Nonetheless I can always adapt and learn new ways of doing things. Currently I am researching Agile project management along with UI and UX philosophies.

I also offer branding and marketing experience toward collaborative efforts for a variety of endeavors. Trends are not foreign to me, both in and out of the tech world. During my studies I ran a small marketing/production firm for creatives and small business owners called Trickle Media with a few other multimedia artists. I've had a more than sufficient understanding of Word Press, the Adobe Creative Suite, and various other digital workstations for more than five years.

I would love the chance to talk with you more about this position. If you have any further questions please call me at 919-260-5009 or email me at salem.ezz@gmail.com.

Sincerely,

Salem Ezz
